

"MY HOPE FOR HIM?
A BETTER EDUCATION."

I'VE LIVED IN THESE ISLANDS ALL MY LIFE AND BELIEVE THE MOST IMPORTANT CHALLENGE FACING US IS THE EDUCATION OF OUR CHILDREN.

THAT'S WHY I SUPPORT VIDEO LOTTERY GAMES. THESE MACHINES ARE POURING HUNDREDS OF THOUSANDS OF DOLLARS EVERY MONTH INTO OUR GOVERNMENT - MUCH OF IT SET ASIDE TO IMPROVE OUR SCHOOLS.

EACH YEAR, MILLIONS OF TOURISTS VISIT OUR BEAUTIFUL ISLANDS. VIDEO LOTTERY GAMES PROVIDE THEM A WAY TO LEAVE SOMETHING BEHIND - MILLIONS OF DOLLARS ANNUALLY THAT WILL BE INVESTED IN OUR LEGACY TO OUR CHILDREN - THE VERY BEST EDUCATION WE CAN PROVIDE.

WHETHER OR NOT YOU PLAY VIDEO LOTTERY GAMES, IT'S TIME FOR ALL OF US TO UNDERSTAND AND APPRECIATE WHAT THEY MEAN TO OUR FUTURE AND, MOST IMPORTANTLY, OUR CHILDREN'S FUTURE.

“It’s a fact: our schools need more money.”

That’s why I support Video Lottery Games here in the islands.

Everyone involved in our education system tries hard but we are often frustrated by the lack of resources for our schools. We need more money to give our students what they deserve – the best education possible.

Video Lottery Games provide a real way for us to do that. They are approved and regulated by our government, and as promised, are starting to provide hundreds of thousands of dollars each month to help improve our schools.

If our children are to build a better life for themselves, their families and these islands – we must provide a better education in our schools.

Whether you play or not, we need to support Video Lottery Games. It’s a way for us to leave behind a legacy of better education and better opportunities for our children.

“Bottom line, Video Lottery Games are good business for our schools.”

Until recently, tens of millions of dollars were flowing out of our economy each year to illegal lotteries and unregulated gambling. Now, Video Lottery Games help our islands by capturing that lost revenue and giving tourists another reason to come here. Along with those of us who play, that means millions of extra dollars that stay here, and also translates into much needed funding for our public schools.
